# NUMBERS 1-10 HATS

Perfect for...

- Centers
- Whole Group
- Small Groups
- Centers
- Number Review
- Independent Work

# TEACHERS REVIEWS

"We have done one hat a week. The kids are very motivated and love wearing their number hats. I love how it gives so many ways to learn about the number.; tracing, ten frames, tally, marks, counting objects, dice, and number line. It also gives us a weekly practice in using scissors and following directions. I will definitely use this resource every year."

"My kiddos look forward to the number hat each week. I love that this shows so many ways to make a number. A + resource!!"

" This resource was a great addition to our math curriculum and helped build number sense with our students."
