NUMBERS TO 10

What's included?

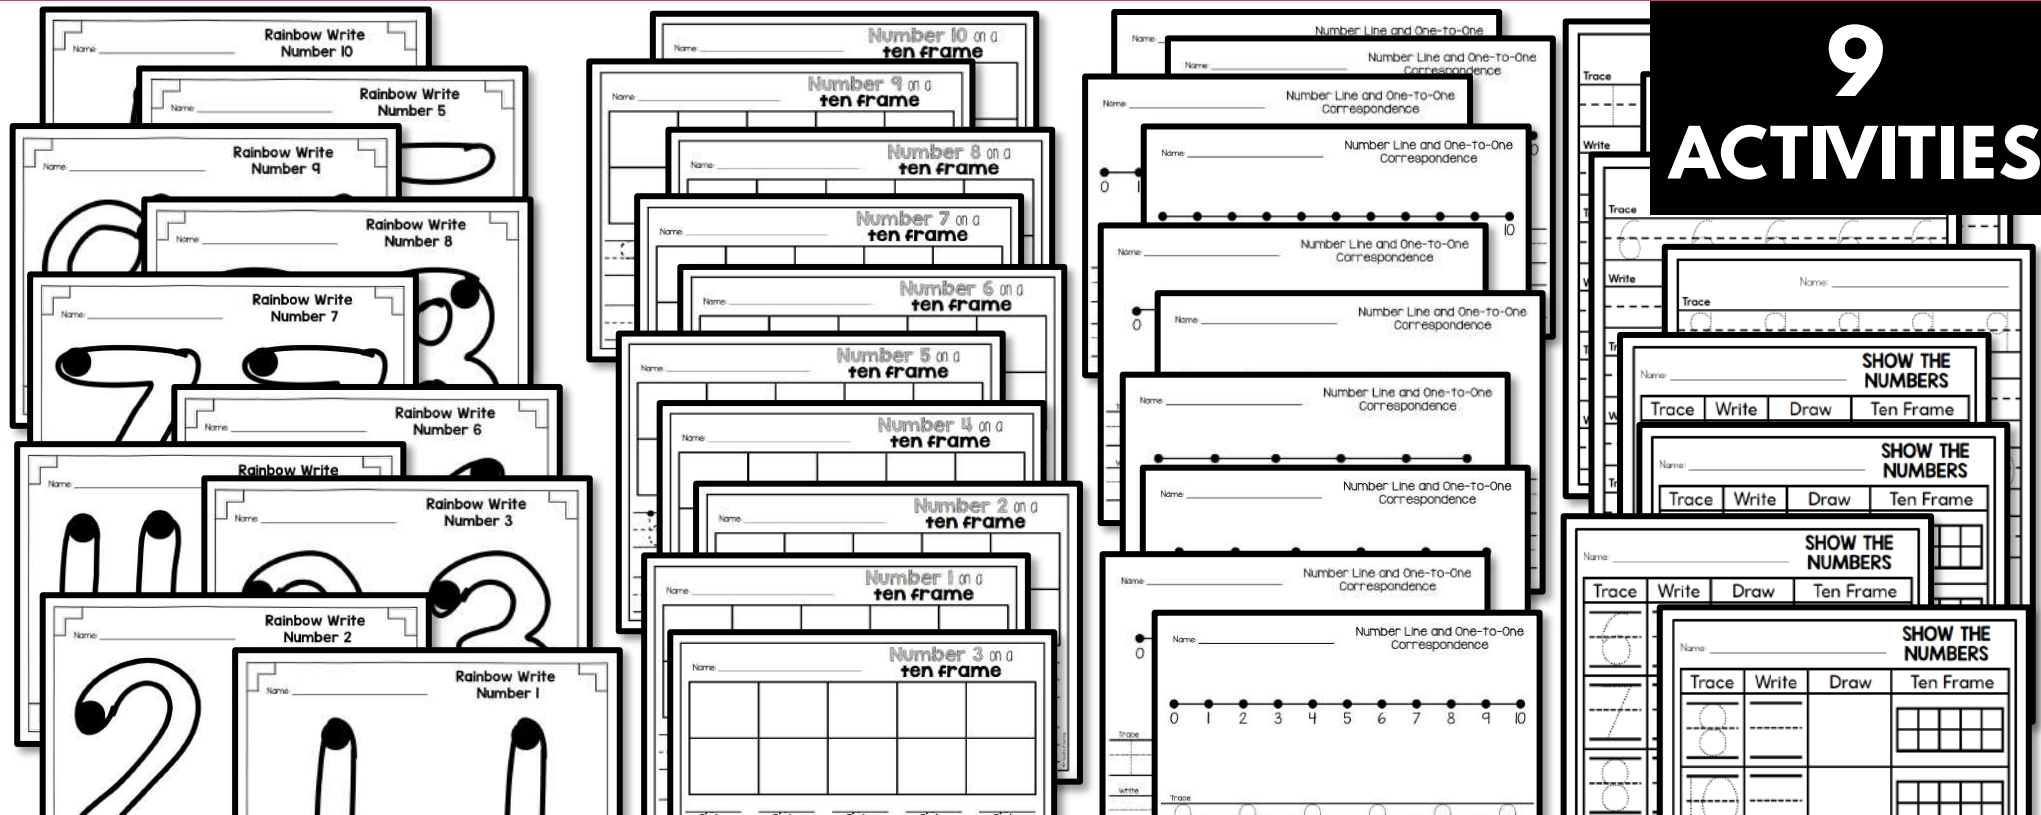

NO-PREP PRINTABLES

Practice number identification, number formation, counting, ten frames, number lines, and 1:1 correspondence. Build number sense!

NUMBERS TO 10

What's included?

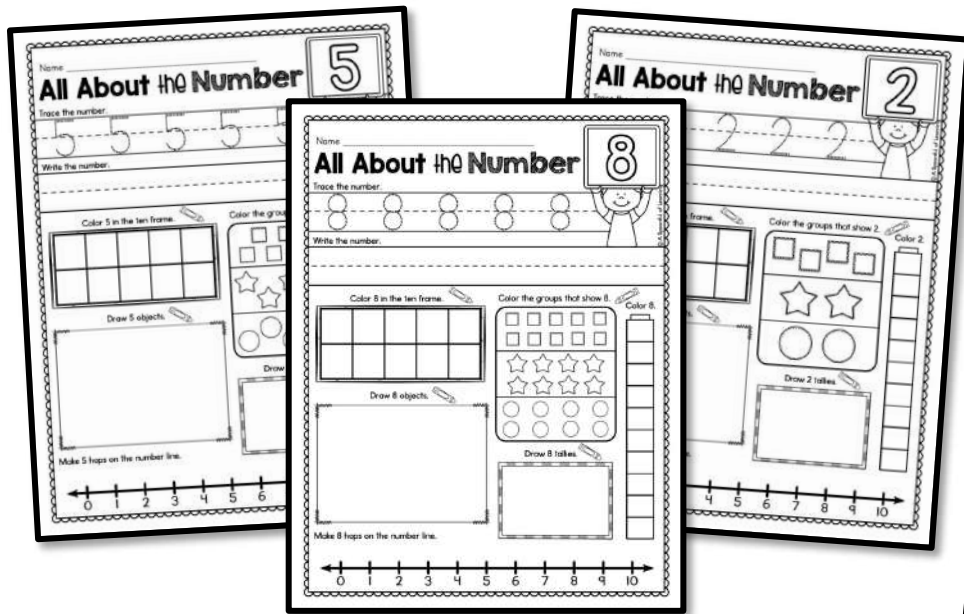

80 PRINTABLE NUMBER PAGES

Focus on numbers 1-10 and learn how to identify and show each number in a variety of ways.

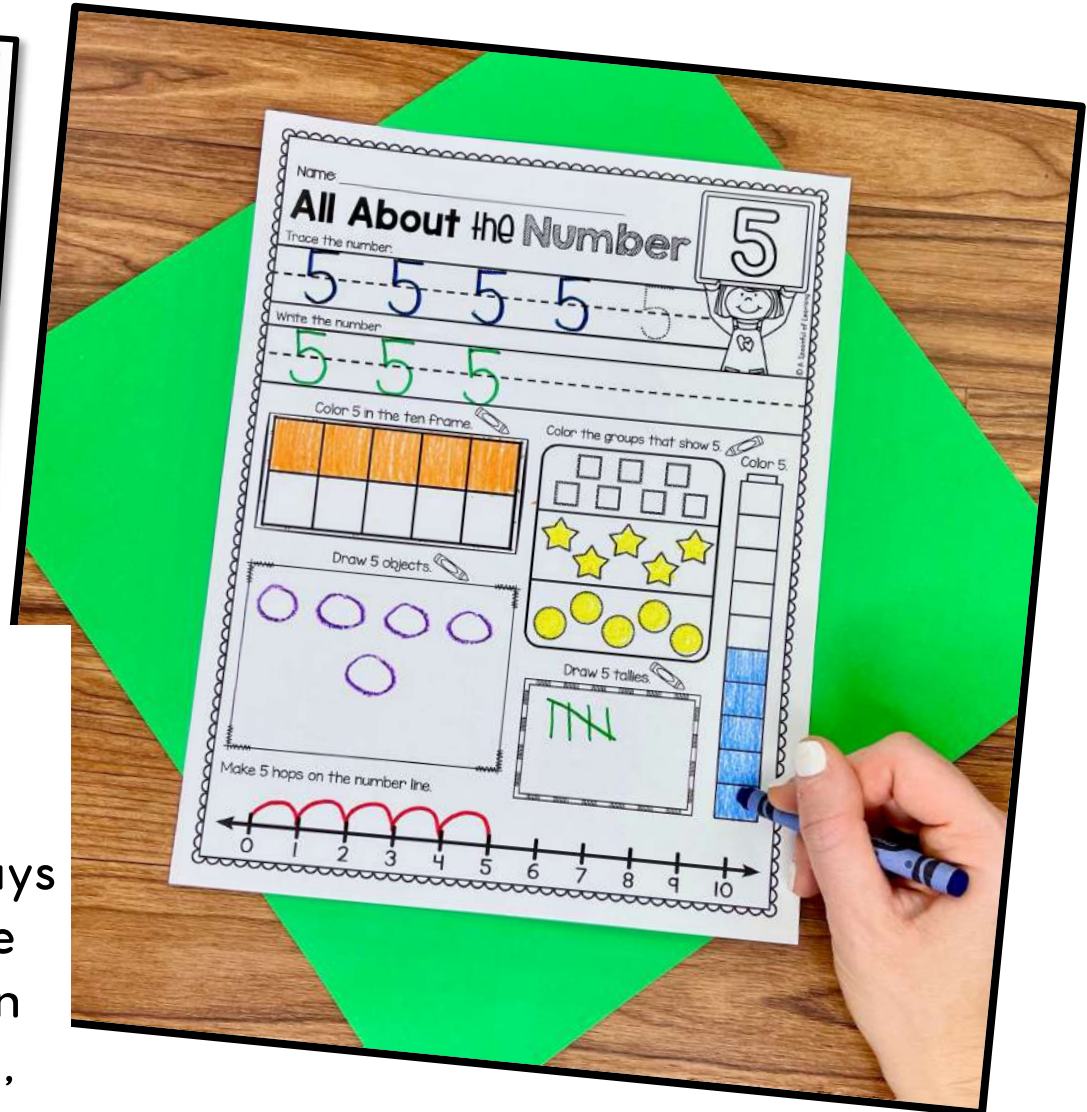

NUMBERS TO 10

What's included?

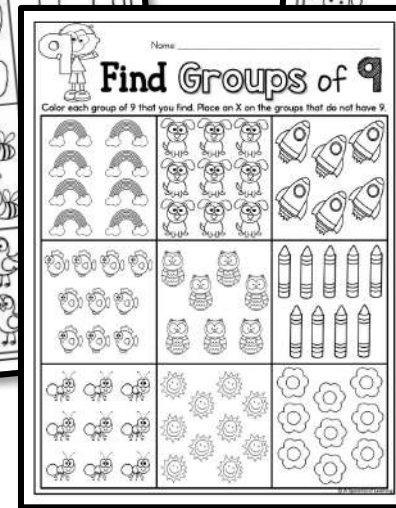

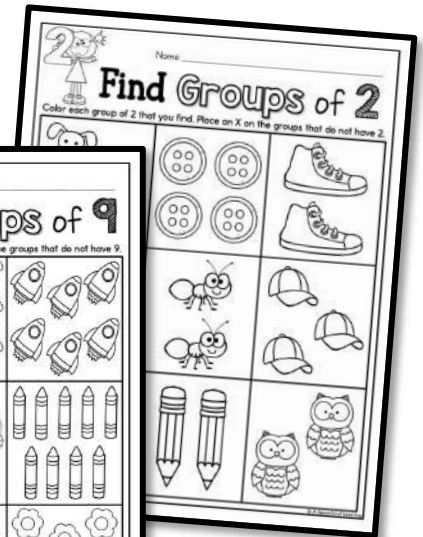

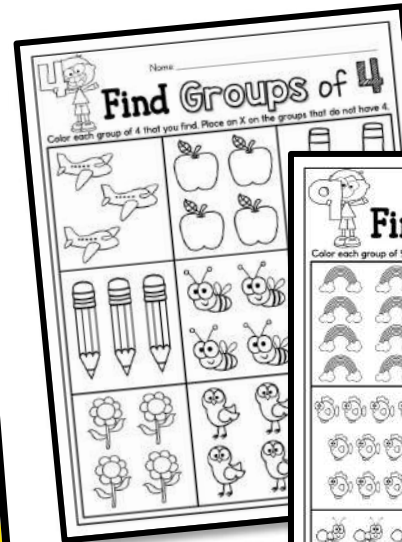

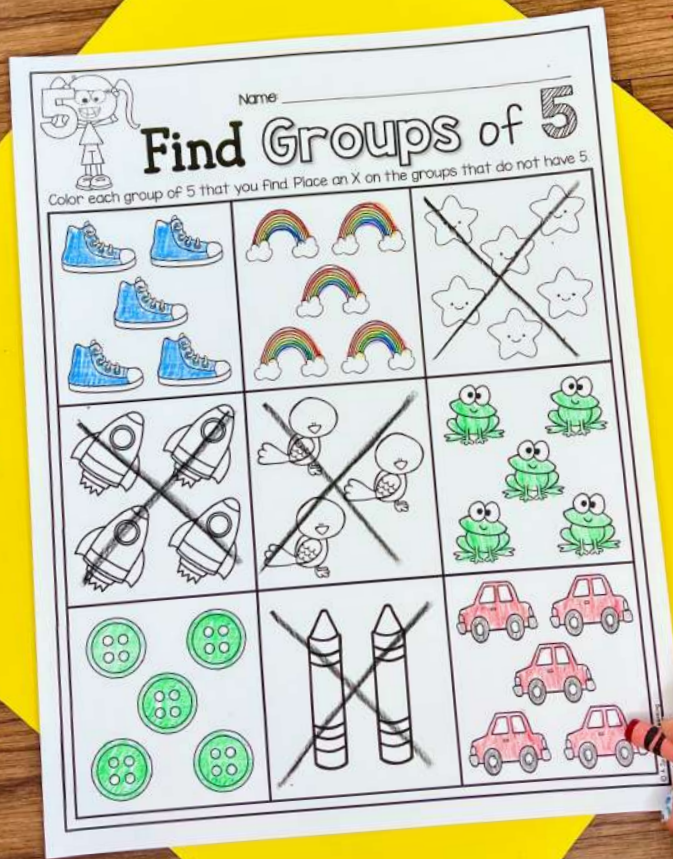

ALL ABOUT NUMBERS 1-10

Students will show all the different ways they learned about a number on one page. Number formation, writing, ten frame, 1:1 correspondence, counting, number line, tallies, and more!

NUMBERS TO 10

What's included?

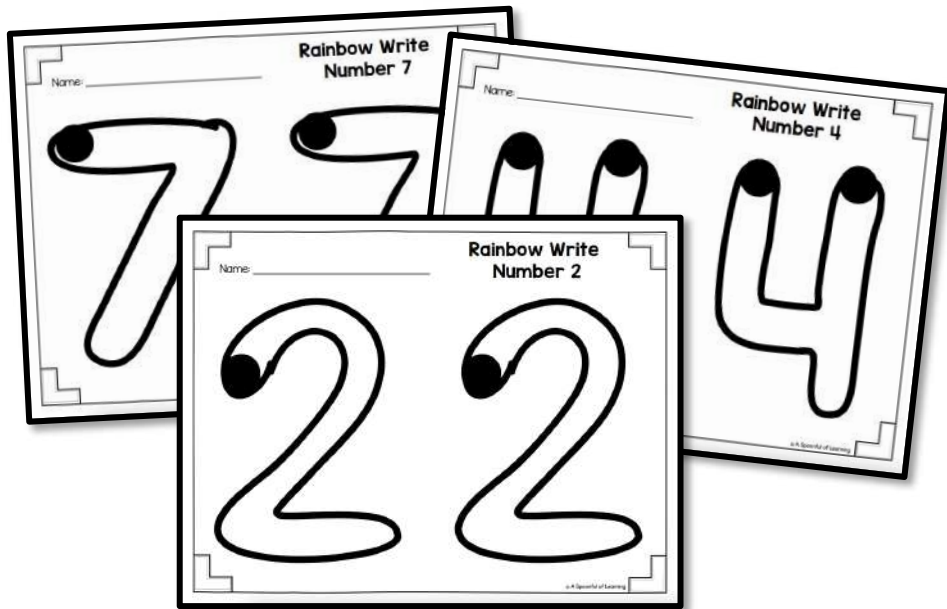

FINDING GROUPS

Count the groups to determine if they have the correct number. Great 1:1 correspondence and counting practice.

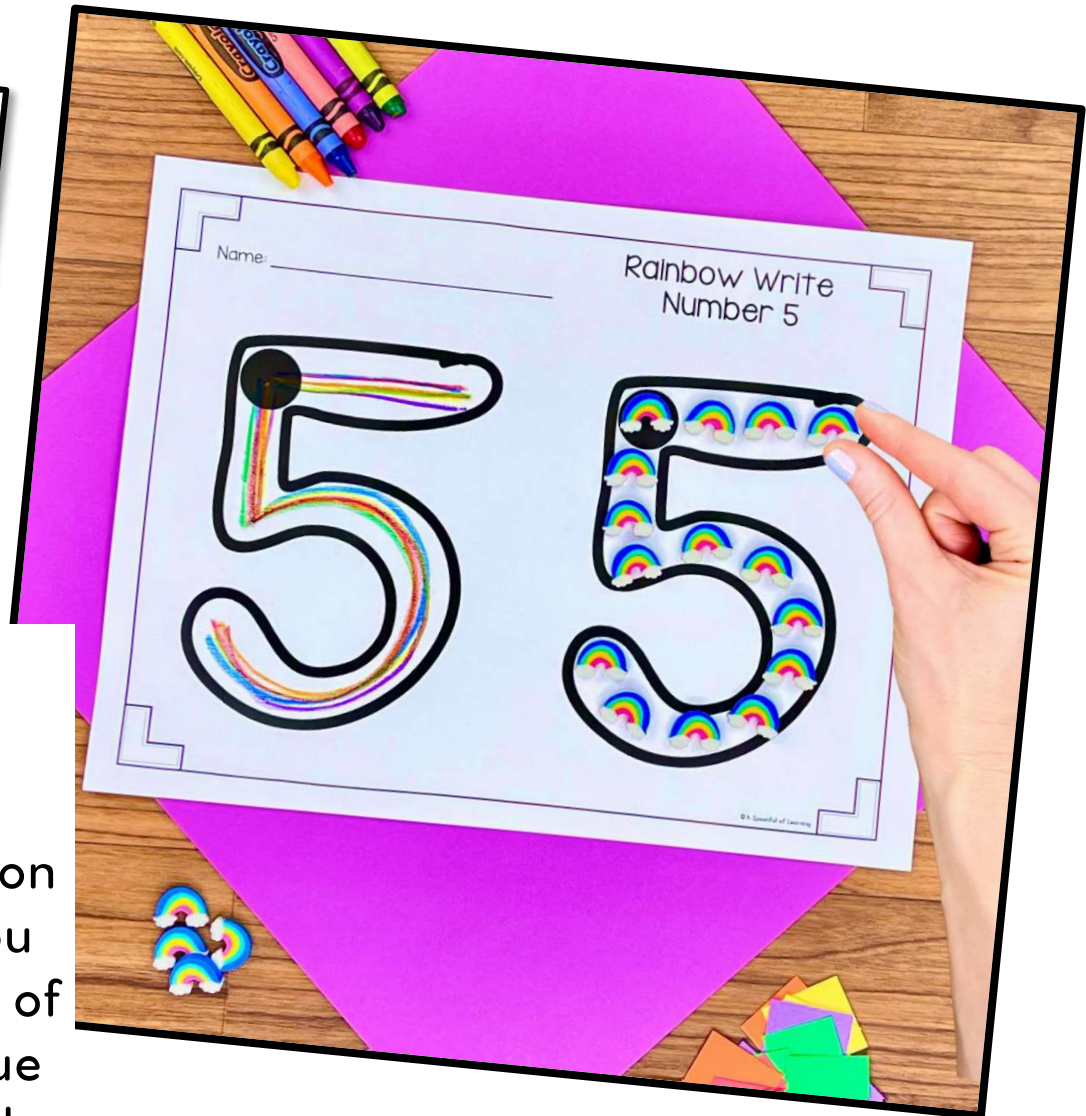

NUMBERS TO 10

What's included?

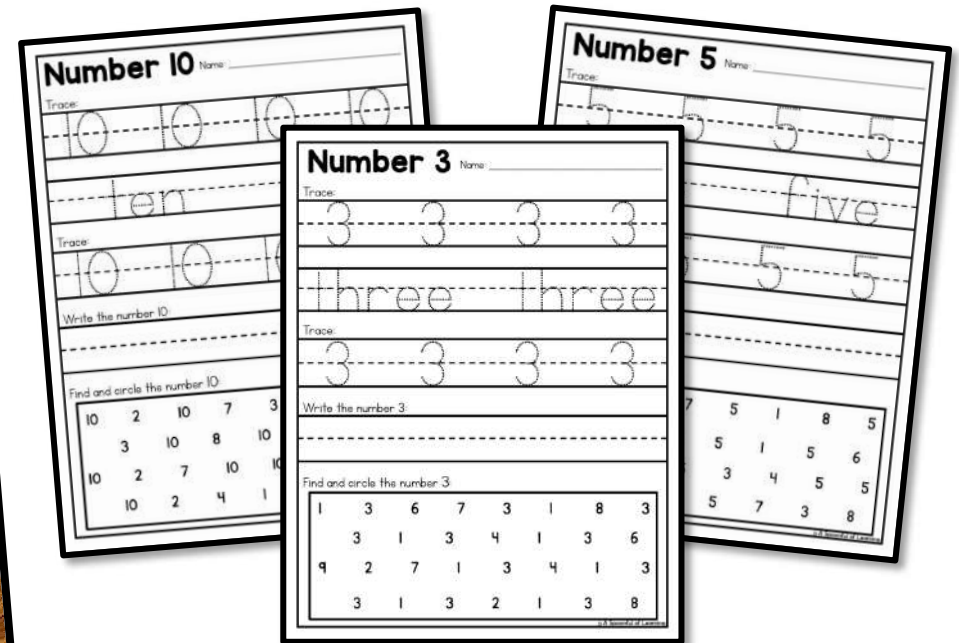

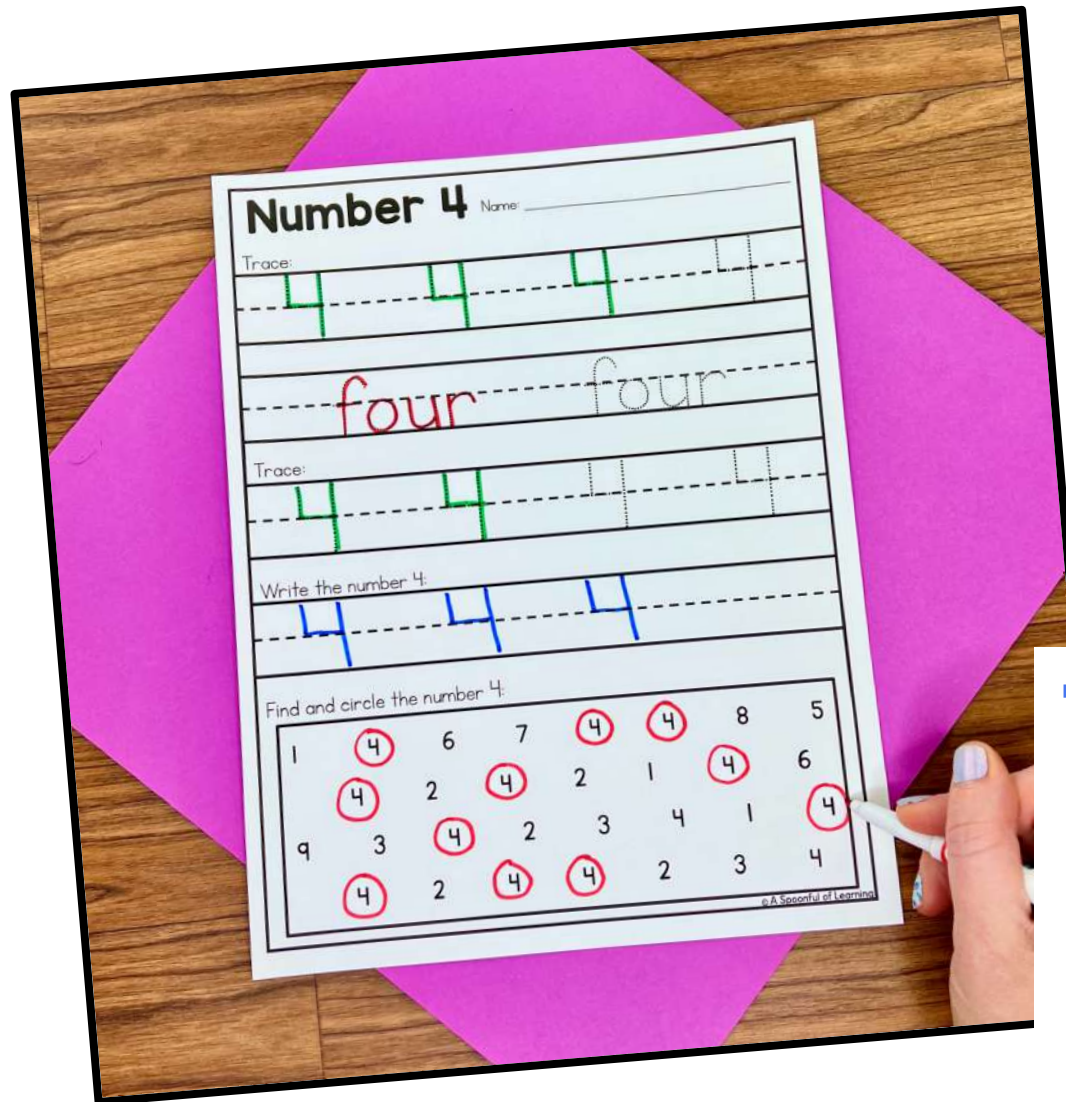

RAINBOW WRITE NUMBERS

Students will practice number formation by rainbow writing large numbers. You can also fill the number with a variety of objects: mini erasers, glue shapes, glue cereal, glue ripped paper, and more!

NUMBERS TO 10

What's included?

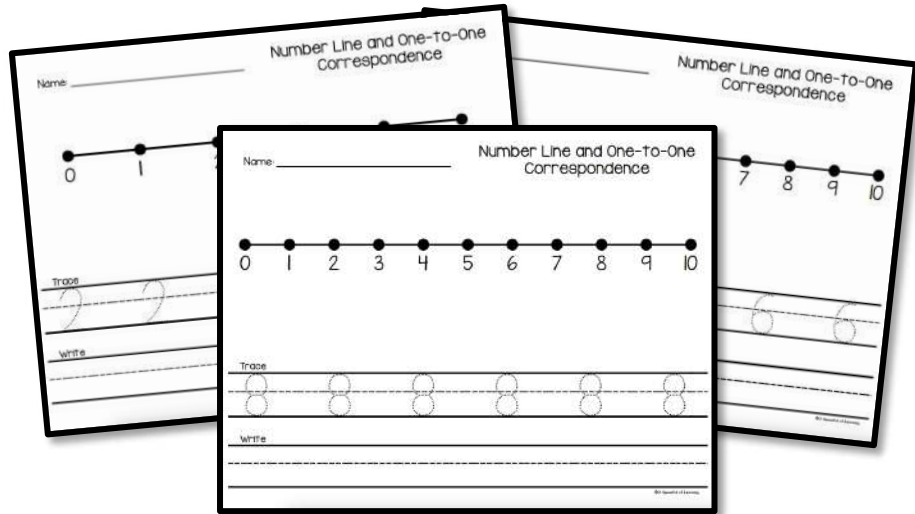

TRACE, WRITE, & FIND

Practice tracing the number and number word. Then, practice writing the number on the lines. Last, find and circle the correct number.

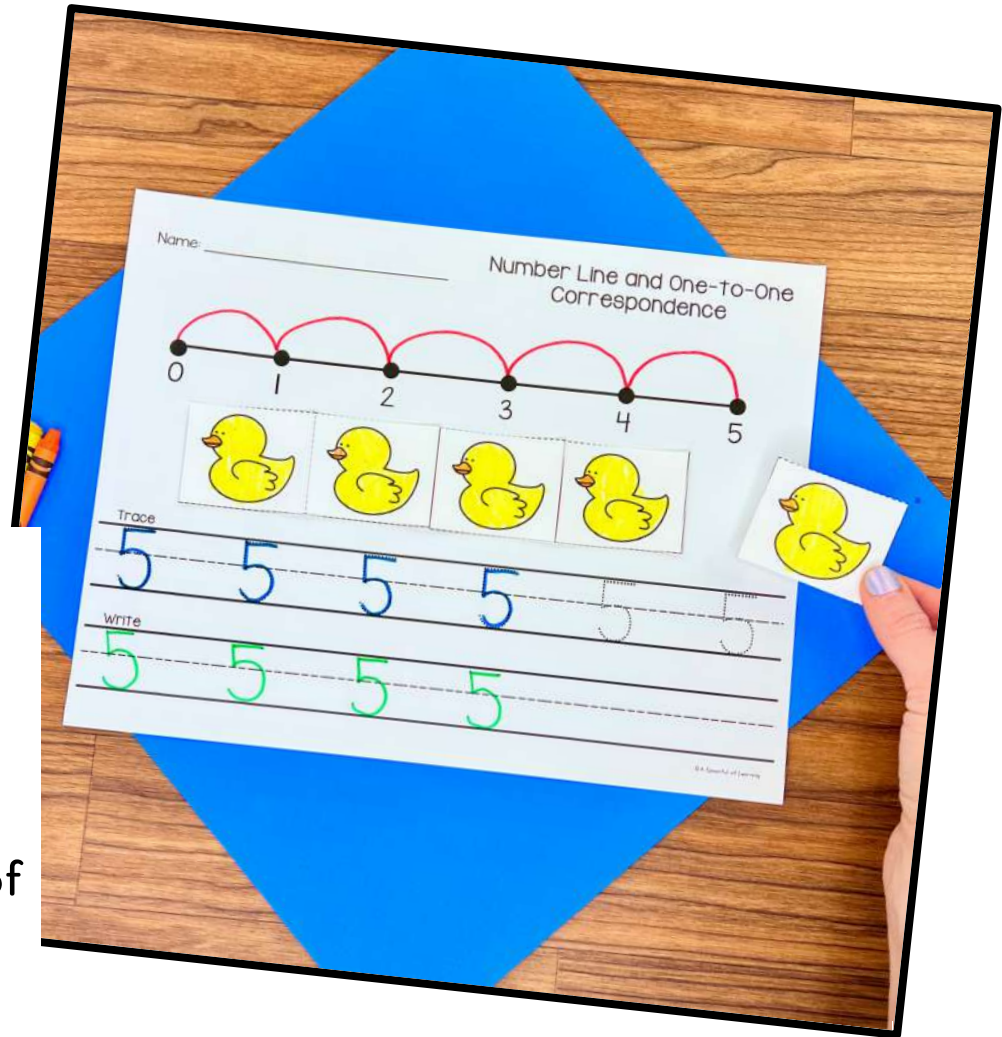

NUMBERS TO 10

What's included?

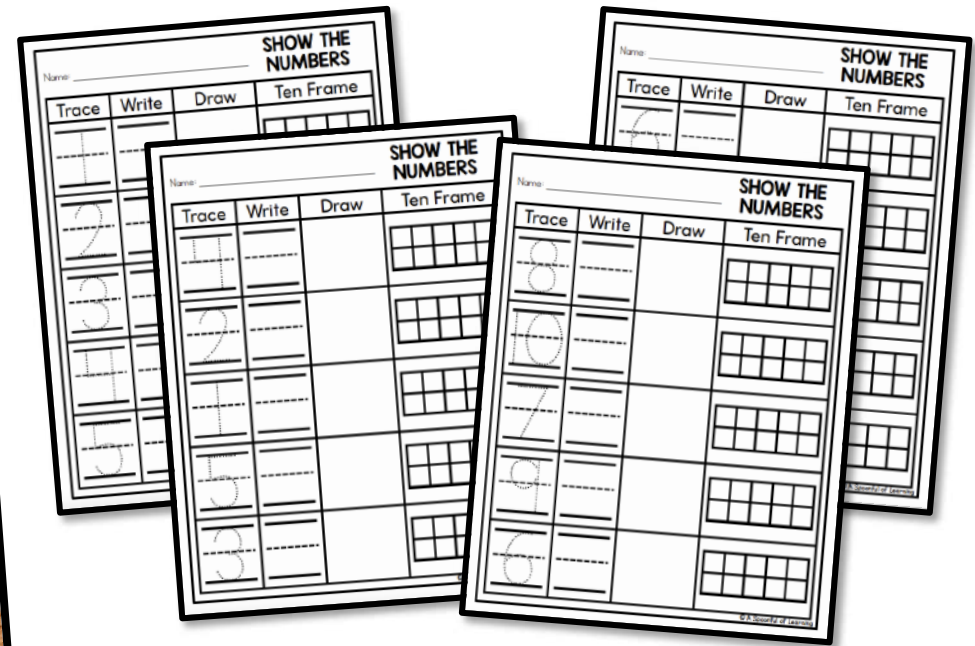

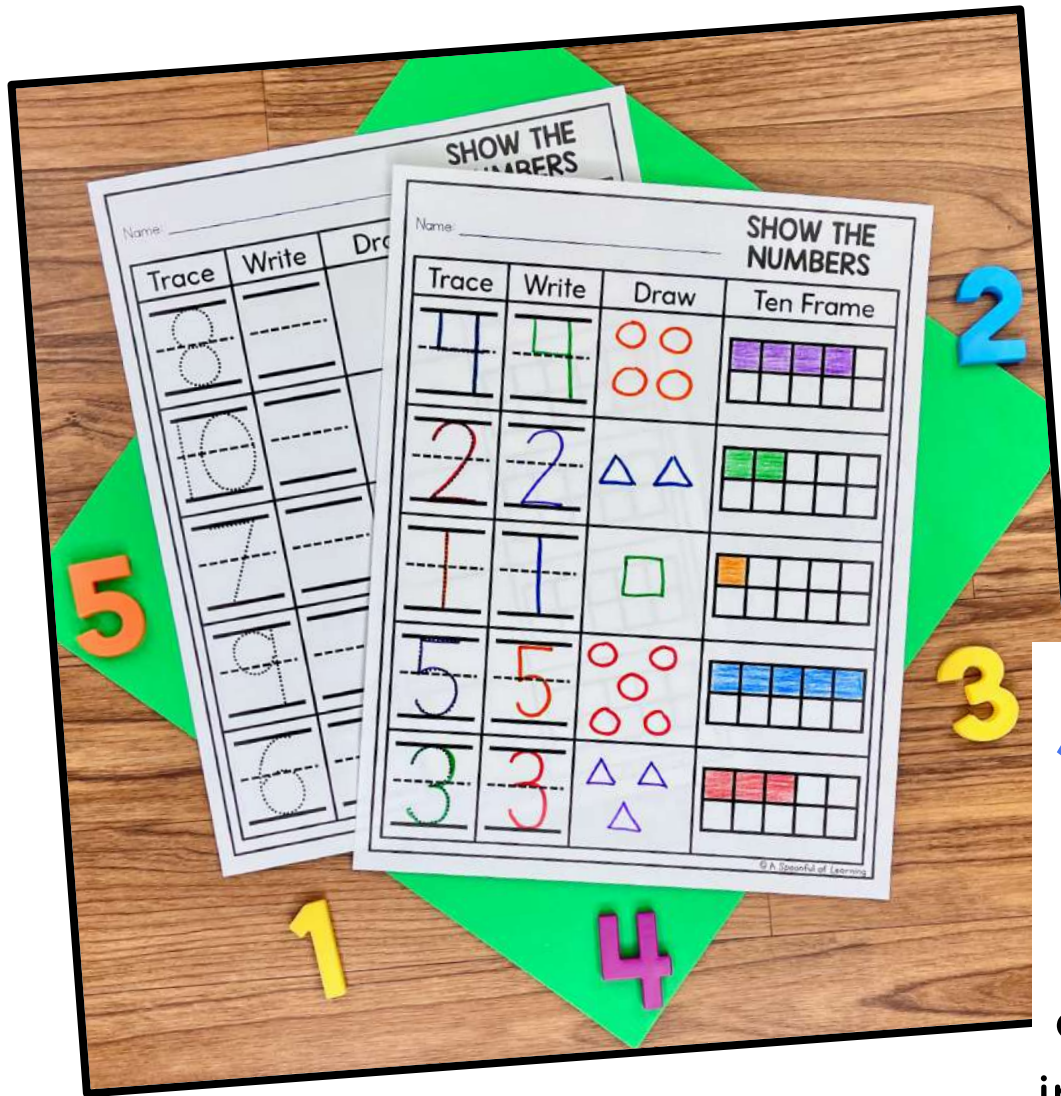

COUNTING ON A NUMBER LINE

Practice identifying numbers on a number line and making hops to the number being learned. Cut and glue the correct number of pictures (variety included) below each number of the number line to show 1:1 correspondence. Practice number formation by tracing and writing the numbers.

NUMBERS TO 10

What's included?

SHOW THE NUMBERS

Practice showing the numbers in a variety of ways. Trace and write each number. Then, draw the correct number of pictures. Last, fill in the ten frame to show the number.

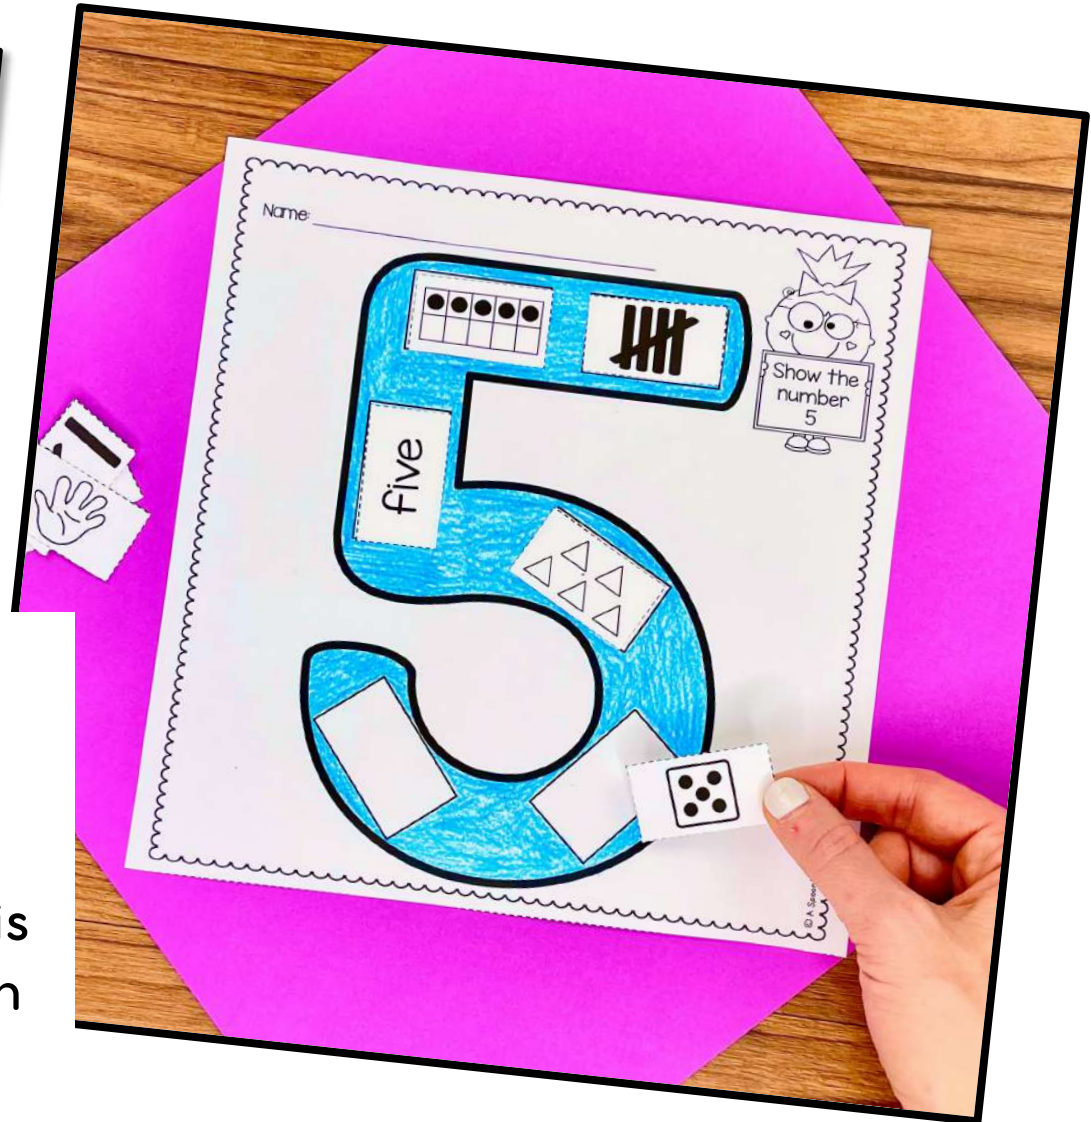

NUMBERS TO 10

What's included?

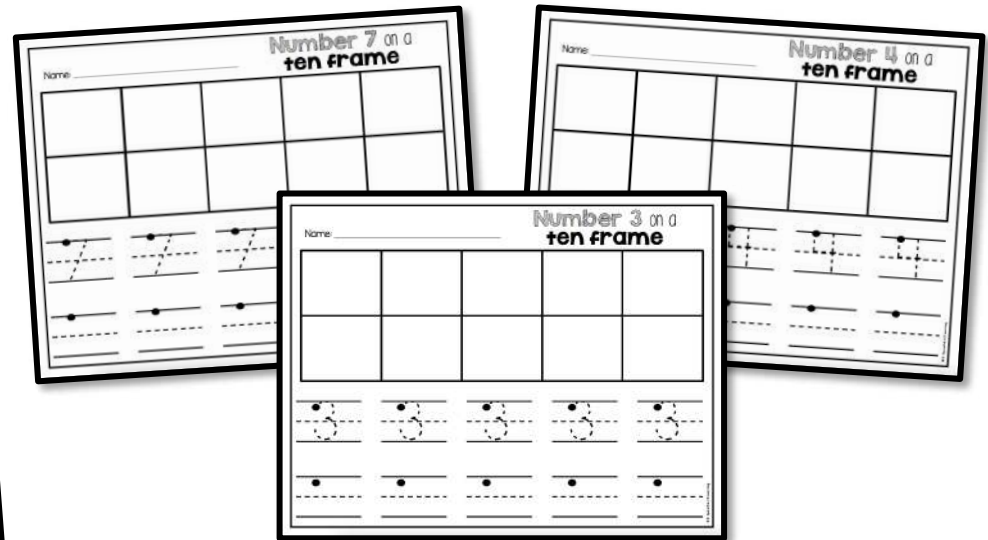

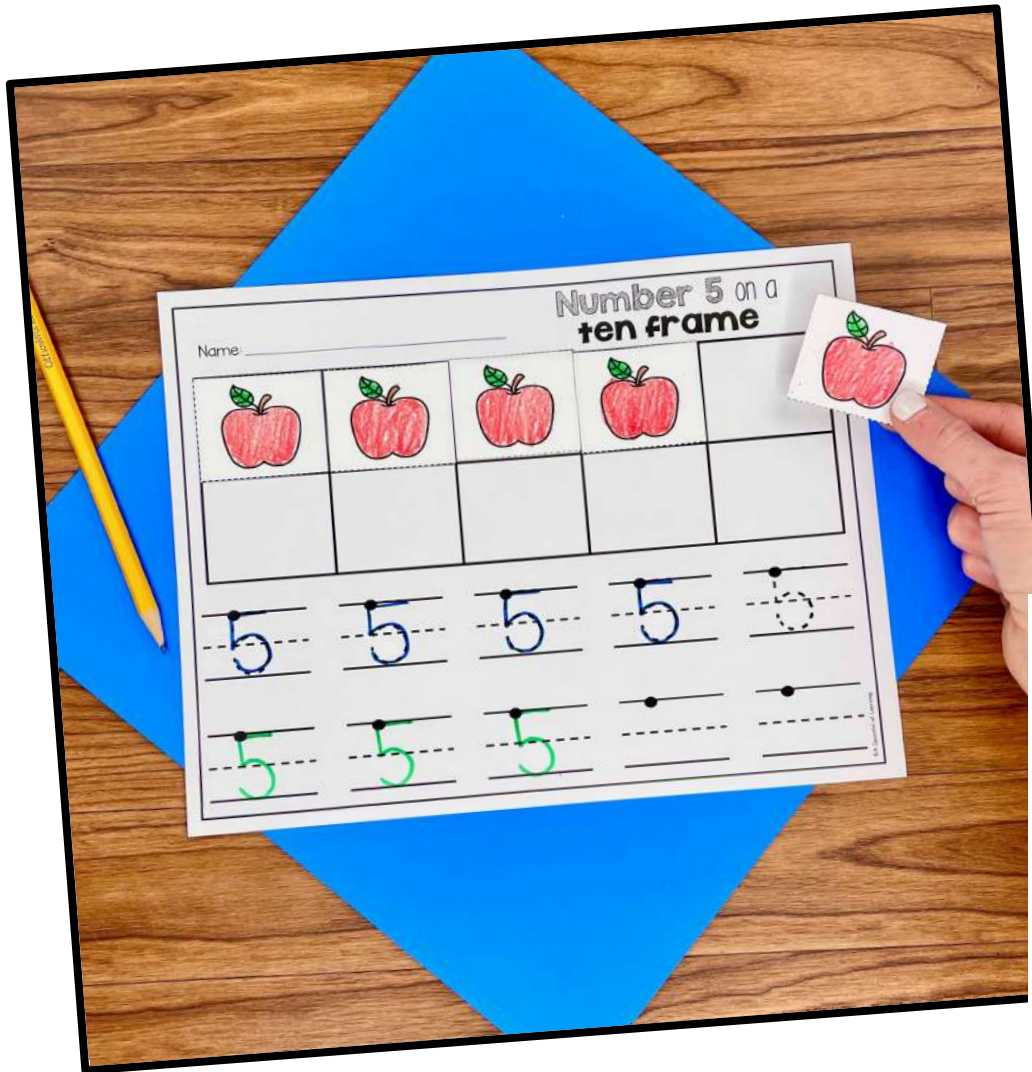

NUMBER SENSE CUT AND GLUE

Cut and glue the pieces onto the number that show the number. This includes showing the numbers with fingers, tallies, ten frames, dice, pictures, and number word.

NUMBERS TO 10

What's included?

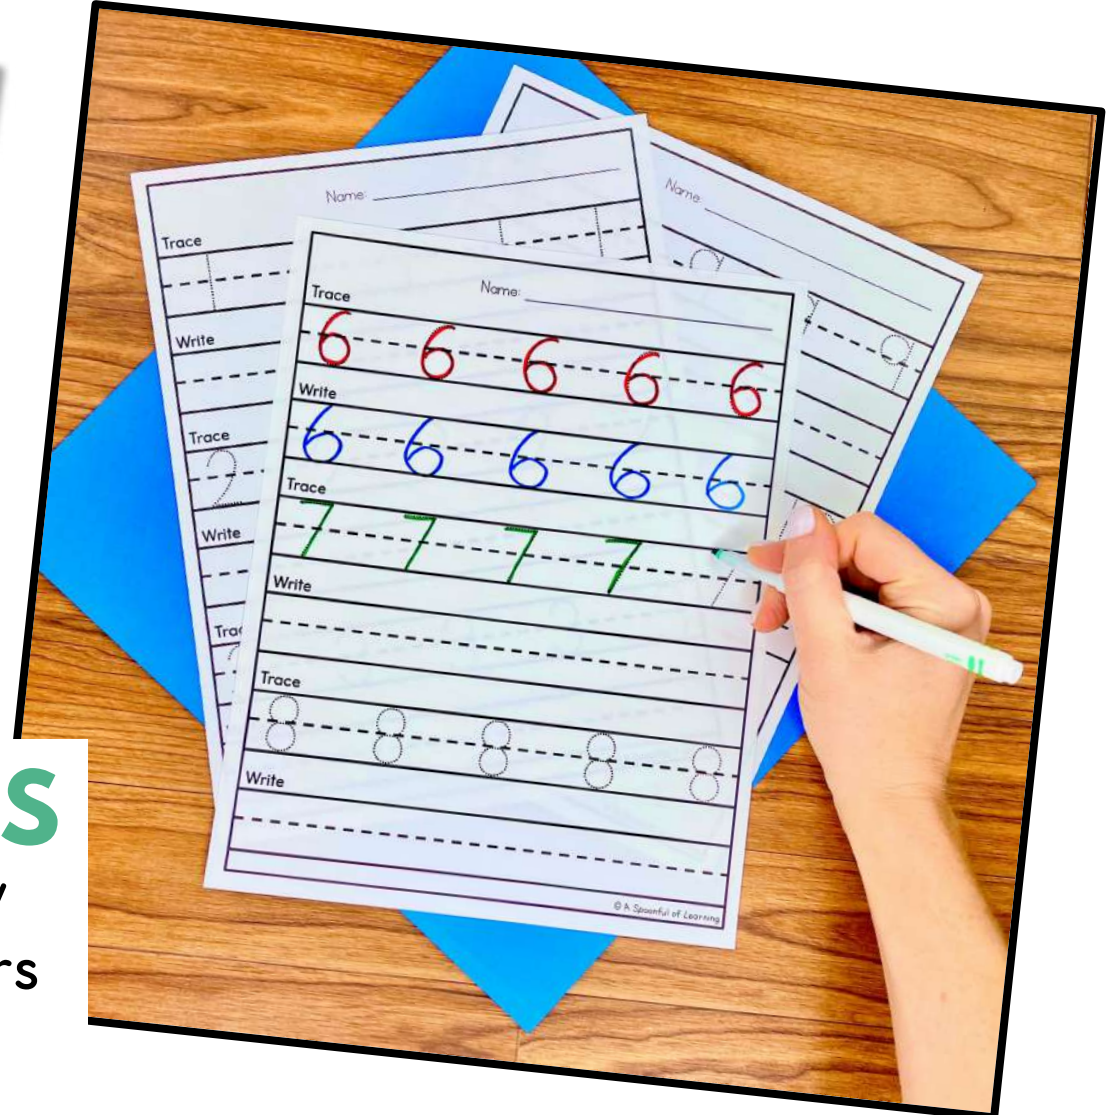

COUNTING ON A TEN FRAME

Cut and glue pictures (variety included) on a ten frame to show the number. Practice number formation by tracing and writing the numbers using a starting dot.

NUMBERS TO 10

What's included?

TEACHERS REVIEWS

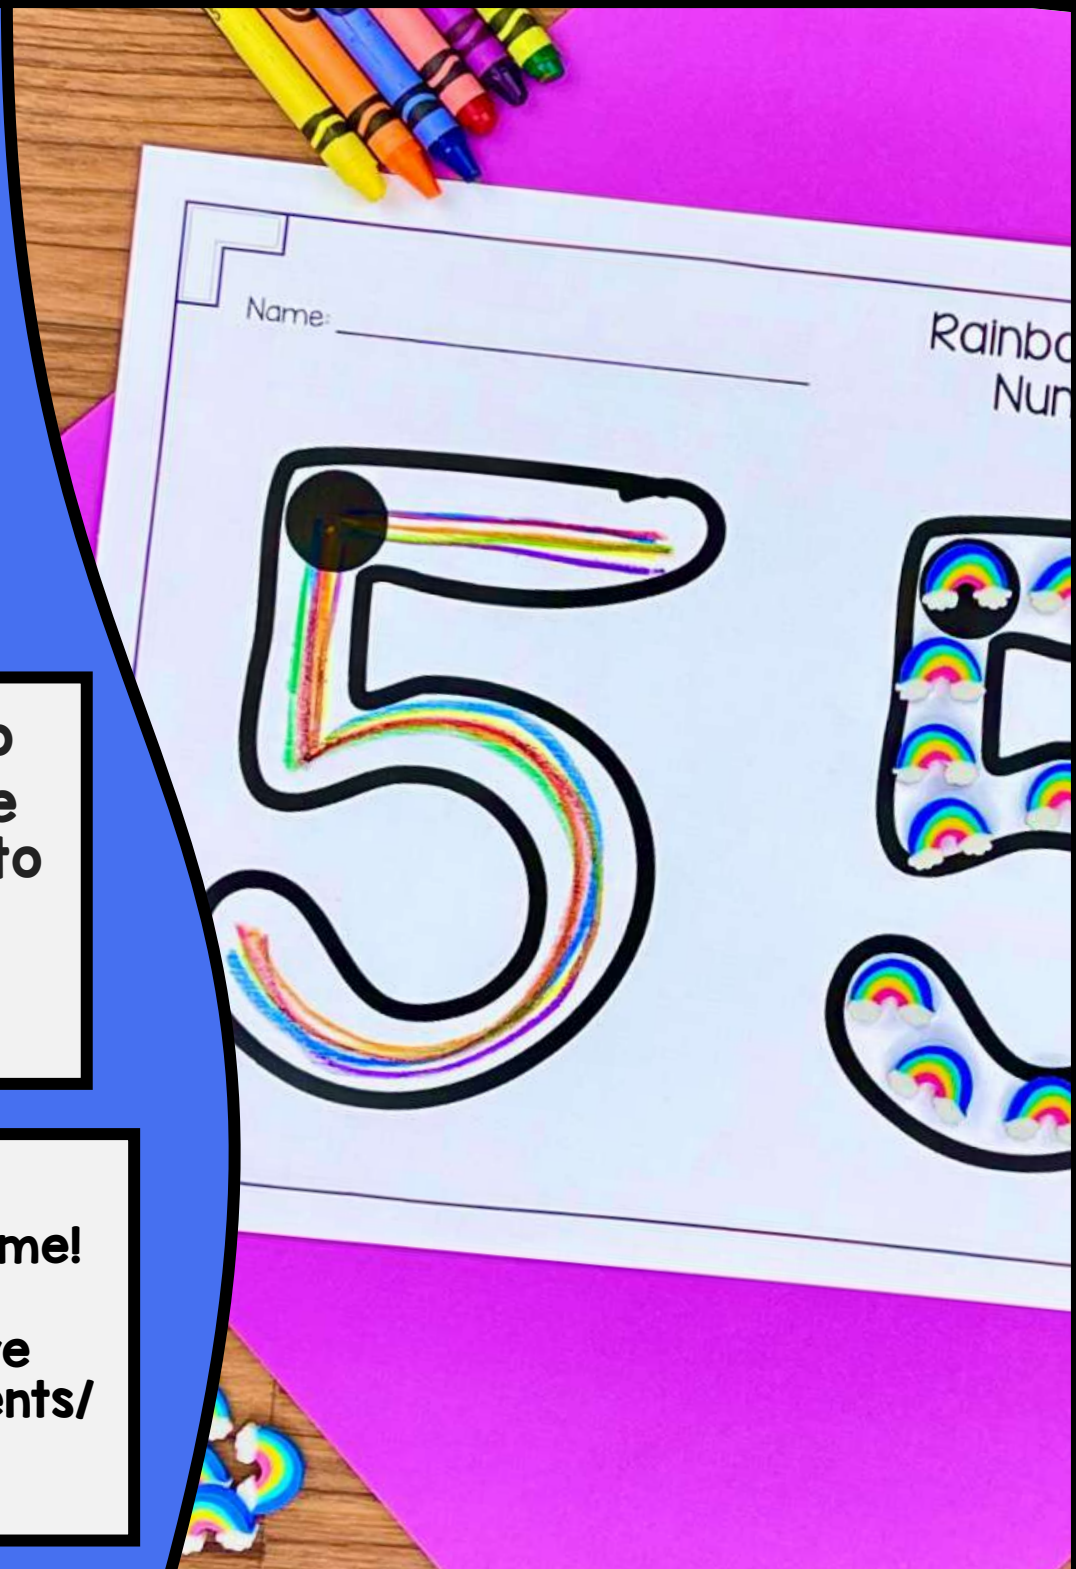

"This product is great for my students. All the activities were engaging and fun for the students. I will definitely use this product year after year."

"My children love to find all the different ways to make a number. This is the perfect way to talk about number sense and recognizing how to create all the different numbers!"

"This is the BEST math purchase I have made in a very long time! KISS YOUR BRAIN!!!! It is relevant, purposeful and fun. I love how you have differentiated it for us and given students/teachers several different choices to practice these skills. GREAT PRODUCT!"

WHY USE NUMBERS TO 10 PRINTABLES?

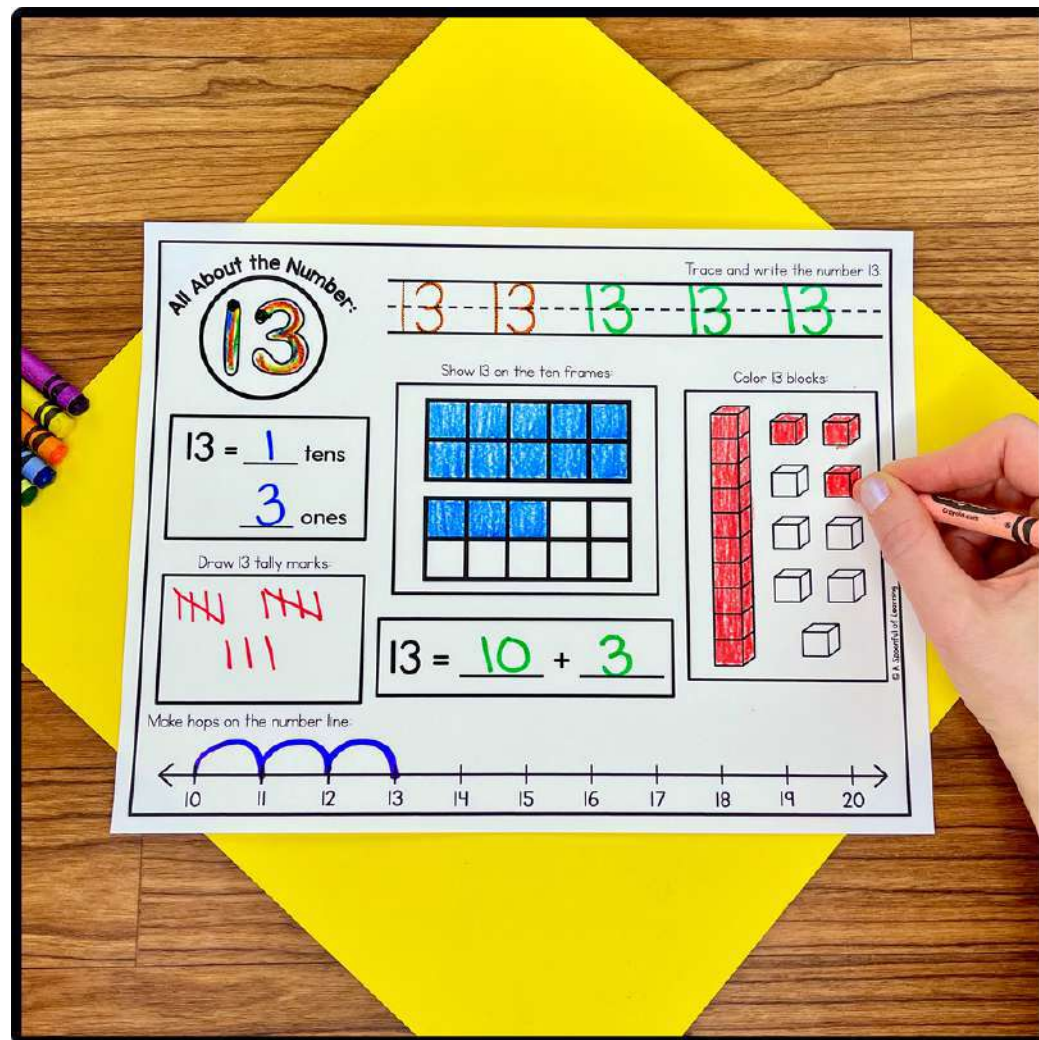

1. Provides you with **no prep** activities that will provide students with tons of practice to help develop **number recognition**, **number formation**, and **number sense**.

2. Can easily grab and use these **hands-on** and **engaging** activities and add them to many different parts of your day.

3. Students will gain tons of **confidence** as they learn the variety of ways to show a number. These number sense skills are incredibly important to **build a strong foundation** in understanding how numbers work and will benefit students for years to come.

TEACHERS REVIEWS

"My students were engaged while using these number boards. I like that they can see several ways to represent a number all on the same board and the fact that it can be interactive is great. My students are eager to interact with this board daily

"My students utilized this resource as a reference when completing math assignments. The multiple representations helped students see numbers different ways.

"My students loved using this for our number board. It taught them a variety of ways to see and write numbers."

TEACHERS REVIEWS

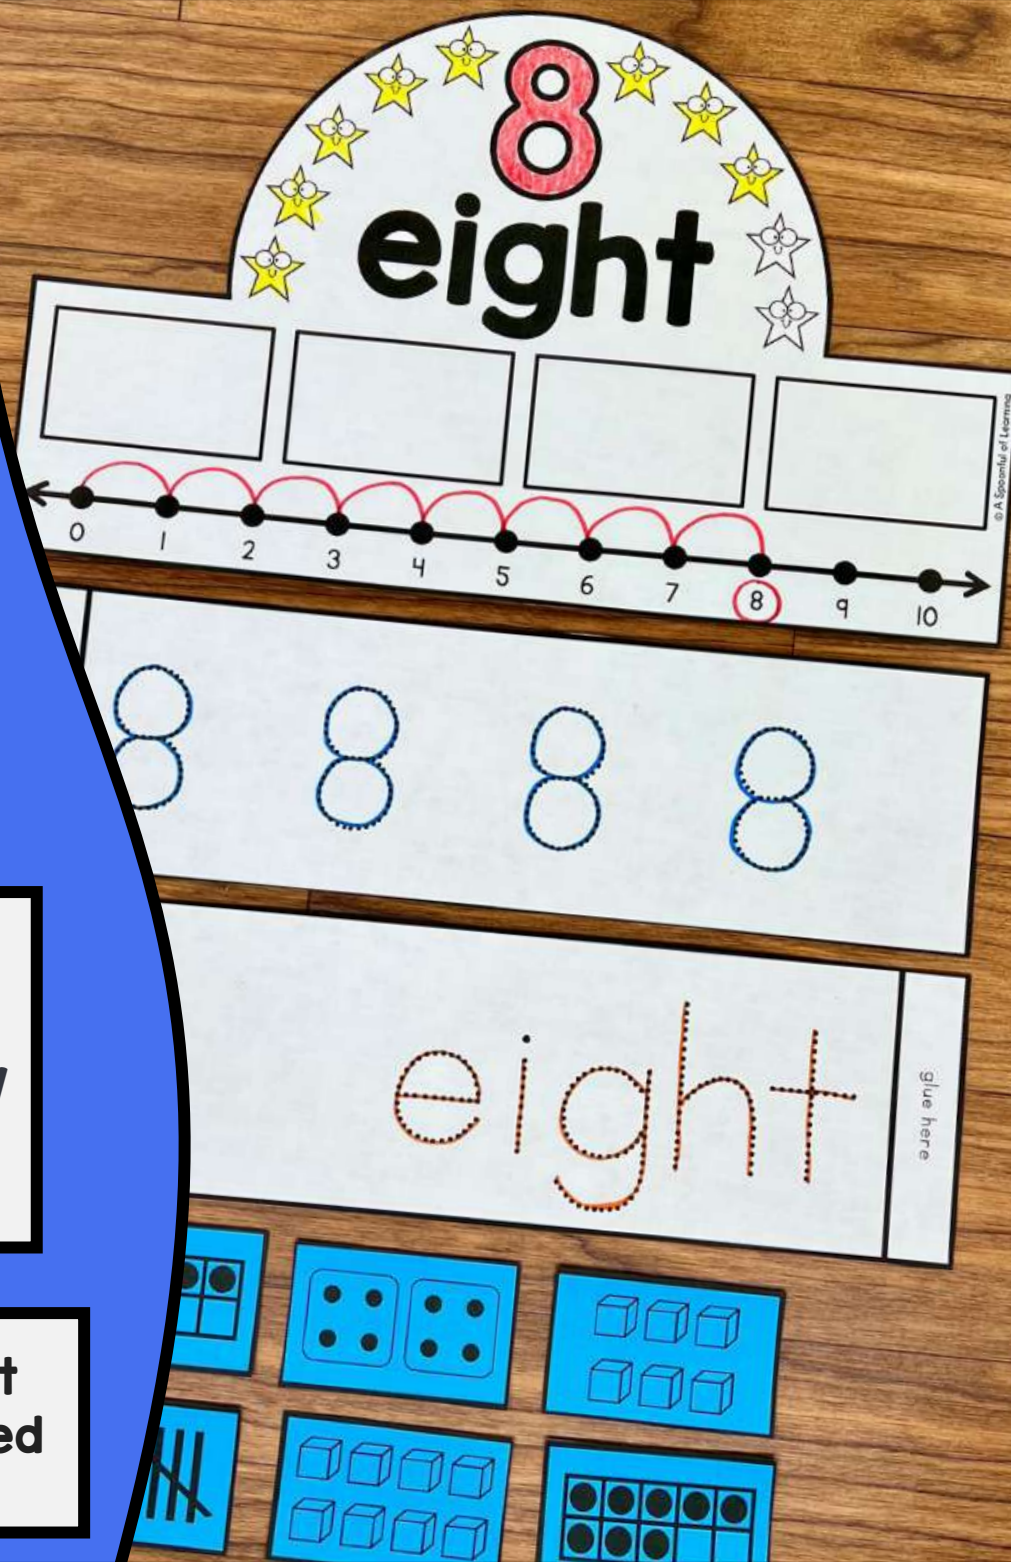

"We have done one hat a week. The kids are very motivated and love wearing their number hats. I love how it gives so many ways to learn about the number.; tracing, ten frames, tally, marks, counting objects, dice, and number line. It also gives us a weekly practice in using scissors and following directions. I will definitely use this resource every year."

"My kiddos look forward to the number hat each week. I love that this shows so many ways to make a number. A + resource!!"

" This resource was a great addition to our math curriculum and helped build number sense with our students."

TEACHERS REVIEWS

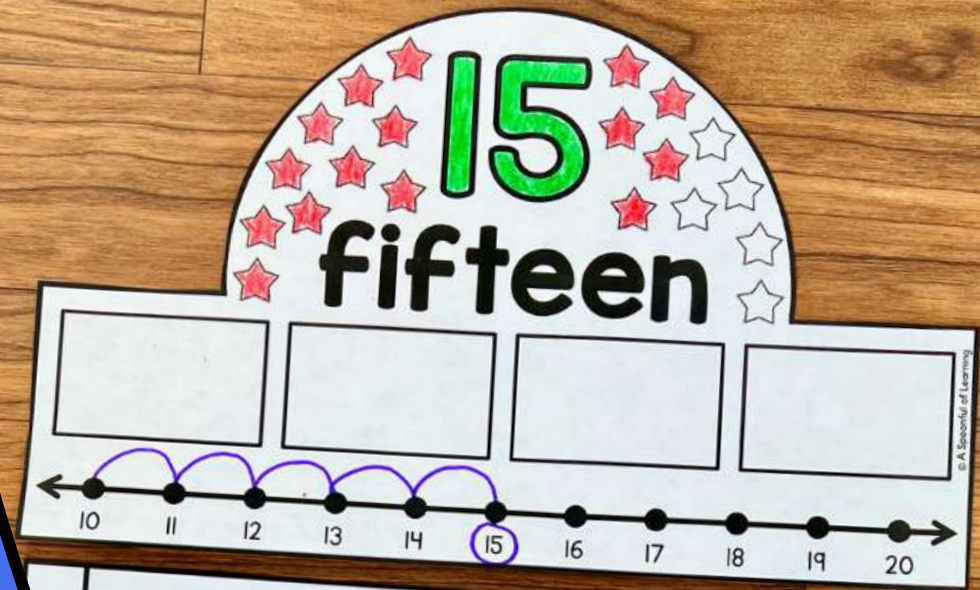

"I love these hats! This "craftivity" will add another layer of practice for the tricky teens and will help support parent engagement for my students! Another awesome product! THANK YOU!!"

"These hats are perfect for our class as we begin to learn about teen numbers! I appreciated the multiple options that are available for each number."

" These are so fun! My students were engaged in the lesson and could not wait to show them off to their peers and take them home. It encouraged talk at home."
